IN THE CLAIMS:

Please cancel claims 67, 70-73 and 77-79 without prejudice or disclaimer.

Please amend claims 66, 68 and 69 as follows:

Claims 1-65 (Cancelled)

Claim 66 (Currently Amended) A device for acquiring data comprising:

~~means~~ an input device for acquiring and transmitting biological data of an individual at different points in time over an extended time frame;

a processor, said processor receiving the biological data of the individual from the input device; and

a memory connected to the processor and storing a program for controlling operation of the processor;

said processor operative with the program in the memory to receive ~~user~~ the biological data of the individual and to analyze the biological data, ~~the data being at least a biological variable,~~ and said biological data being compared by the processor to constantly updated medical information transmitted to the processor to determine if the biological data received ~~interacts with products being stored in the memory, said interaction including at least one of a product-to-product interaction and~~

2

~~a biological variable to product interaction, and display the interaction information~~ is of a predetermined degree of a life-threat to the individual, the processor including a communications link to the individual to send one of different levels of medical emergency warning to the individual dependent upon the predetermined degree of threat to life determined by the comparison performed by the processor.

Claim 67 (Cancelled)

Claim 68 (Currently Amended) The device of claim ~~67~~ 66, wherein the ~~means for transmitting~~ input device transmits data ~~includes~~ to a distributed computer network.

Claim 69 (Currently Amended) The device of claim 66, wherein the ~~means for acquiring data~~ input device includes one of a tonometer, a blood glucose monitoring device, heart rate and rhythm measuring device, blood pressure measuring device and a bar code reader.

Claim 70-79 (Cancelled)
